Your Honor

As for the first two I've already taken care of. So I'm requesting all the emails sent and received from Google to my IP email address especially the ones from Cash app, Wells Fargo, Paycom, Robinhood, Coinbase and cryptocurrency, and Samsung.

I have asked them to communicate with me personally but they will not.

As for the FBI and State Police they wouldn't even let me in the door to make a complaint.

I also reported the Quick share number to the local police, they called the number but no one answered. Quick share is who shared all my information without my permission (Quick Share Pro # 453-764-4953) the officer called them on the police Dept. phone. I also have two flash drives that I took information off my other phones that I was afraid to give to them because of the way they were not investigating my case.

that's why I'm requesting hard copies of my emails from Google, Samsung, Cashapp, PayPal, Wells Fargo, Robinhood, Coinbase and cryptocurrency.

In Sept. of 2024 I received an email from a person named Elizabeth a Cash app. employee she said I had invested \$4,200 from Feb to Oct. then someone deleted it. I was even threatened with bodily harm on Christmas eve 2024 and then they deleted it.

With Samsung Quickshare they can get into my information and create pop-ups so I can't get into my phone. I think that I'm just one of millions that they are doing this to, but someone has to take a stand and I'm taking mine here.

Sincerely

Donald R Prater
